

Congratulation Message to SAREK 50th Anniversary

JSRAE President Kuniaki Kawamura

JSRAE members all send our best wishes to SAERK 50th Anniversary.
Congratulation!

Refrigeration and air conditioning and food preservation are the foundations of human life, and we pay tribute to SAREK's contribution to technological research in this field.

In addition to taking on the challenge of carbon neutrality worldwide, we expect further success in the future countermeasure against Covid-19.

We would like to proceed the concrete relationship with SAREK.
And also hope for the continued development of SAREK, JSRAE, and other related societies, keeping friends with.
